<b>SID THE SCIENCE KID</b> The kids investigate how bats are helpful creatures that catch mosquitoes, spiders are expert engineer web builders, cats are leaping aerial acrobats, and skeletons help hold up our body frames.	<b>CYBERCHASE</b> The CyberSquad and their new friend Scanner embark on a quest to build a new Encryptor Chip for Motherboard and cure her virus.	<b>READY JET GO!</b> When a strange bird lands in Jet's yard, the kids learn it is a migrating Snow Goose. The kids set up an "observation station" to make notes about their migrating habits.	<b>SUPER WHY!</b> Pig's lemonade stand is sabotaged when someone keeps taking his lemons- but who is it? To solve Pig's mystery, the Super Readers find clues, follow signs, and analyze evidence to solve the mystery.	<b>HERO ELEMENTARY</b> Sparks' Crew is accidentally shrunk to the size of bugs and have to find their way out of an overgrown, weedy area. They are inspired by the different abilities of insects and arachnids, and imitate those abilities to try to find their way out.
<b>CAT IN THE HAT KNOWS A LOT ABOUT THAT!</b> Nick wants to create a new home for the cricket in their backyard, but the cricket won't go in. The Cat takes them on a journey but has to make an emergency landing on Lagoona-Maroon, where they discover what they really need to consider when making a shelter.	<b>CYBERCHASE</b> Dr. Marbles is captured by Hacker and taken to Castleblanca, a cyberspace version of Transylvania. To find Marbles, the kids must master the art of properly collecting data, organizing it and graphing the results - which are sometimes surprising!	<b>SID THE SCIENCE KID</b> Dr. Rosalinda Cordova is a marine biologist so she does lots of research on the computer, but it's not the only thing she uses. She tells the kids that when she does research, she reads books at the library, makes observations, asks experts, and looks at websites with good information.	<b>CYBERCHASE</b> Statues of Hacker are popping up all across Cyberspace. Hacker throws himself into sculpture and gives his work away. Problem is, wherever one turns up, the power goes off. The CyberSquad investigates to see what's causing all these changes.	<b>CYBERCHASE</b> Hapo the earthworm needs help underground. With one zap of Digit's "shrinkray," the team shrinks to the size of tiny insects and portals underground.
