TITLE 14. ZONING AND PLANNING

CHAPTER 14-100. GENERAL PROVISIONS.

* * *

§14-101. Purpose.

This Zoning Code is the first comprehensive revision to Philadelphia’s zoning laws in nearly 50 years. The earlier code, dating from 1963, was updated in [1988] 1991 when the zoning rules governing Center City were significantly reformulated. However, most modifications to the Zoning Code have occurred in small increments or through a myriad of individual ordinances and overlays, resulting in a very complicated document that was increasingly unable to meet the demands of an evolving city. In 2007, the voters of the City decided to create a Zoning Code Commission and charged this 31-member body with the task of writing a new Zoning Code. The result is this Zoning Code. It is enacted to guide the land use and development of the City and in so doing, promote the public health, safety, and general welfare of its citizens and visitors. The provisions of the Zoning Code are designed to achieve the following goals. With these goals in mind, the members of the Zoning Code Commission intend for this to be a living document that will propel the City of Philadelphia to a higher quality of life.

* * *

§14-102. Citation and Title.

Title 14 of The Philadelphia Code [is] shall be known as the “Zoning Code.”

* * *

No lot of record that did not exist on the effective date of this Zoning Code shall be created, by subdivision or otherwise, that does not conform to the applicable requirements of this Zoning Code, unless allowed by §14-110 (Transition from Prior Regulations).

(3) **Property Owned, Leased, or Operated by Public Agencies.** Property owned, leased, or operated by the Commonwealth of [Pennsylvania or] *Pennsylvania*, the United States, [and property owned, leased, or operated by] the City or any other public or governmental body or agency, shall be subject to the terms of this Zoning Code, as follows:

* * *

§14-107. Determination of Boundaries.

* * *

(2) **Multiple Districts or Provisions.** When the boundaries of various districts as shown on the zoning map are established so that a single property has more than one base zoning district designation, the following provisions apply. For purposes of this §14-107(2) (Multiple Districts or Provisions), L&I shall determine which district or provision is more restrictive.

* * *

(c) **Splits Involving Any District.** The more restricted portion of the property may not be used for or to serve any purpose that is not allowed in the more restrictive zoning [district, including street frontage or driveway access to the less restricted portion of the property] *district*.

(.1) L&I shall notify the Commission and the applicant when [they determine] L&I determines that an application for a permit is subject to civic design review.

* * *

(.4) The Civic Design Review Committee shall review each proposal and make its recommendation as follows:

(.a) The applicant must submit application materials (in accordance with regulations of the Commission) to the Civic Design Review Committee at least 14 days before the scheduled date of the Civic

Design Review meeting. *If the applicant fails to submit the required materials, the Commission shall so inform L&I, and L&I shall issue a refusal of the permit.*

* * *

(7) Subdivisions and Subdivision Plats.

(a) Applicability. The procedures of this subsection apply to *any* subdivision (as defined in §14-203(328) (Subdivision)), *except for a lot adjustment* [where one or more proposed lots do not have street frontage on an existing legally open, physically improved street shown on the City Plan].

* * *

§14-305. Nonconformities.

* * *

(2) Types of Nonconformities. Six different types of nonconformities exist and are subject to the requirements of this §14-305 (Nonconformities).

(a) Nonconforming Uses [(including non-accessory signs)]

* * *

(f) Nonconforming [Accessory] Signs

(5) Nonconforming Uses.

* * *

(a) Expansion.

(.1) Expansion of nonconforming regulated uses that are listed in §14-603(13) (Regulated Uses) [and nonconforming non-accessory signs] is prohibited.

(.2) For uses other than those specified in §14-305(5)(a)(.1) above: A nonconforming use that is located in a conforming building may be expanded within that building, or within any expansion of that building that complies with §14-701 (Dimensional Standards), provided that the *cumulative expansion since the use became nonconforming* shall not increase the area occupied by the nonconforming use by more than [10% more area than it occupied when it became nonconforming.] *ten percent (10%)*.

* * *

(b) Replacement.

(.1) Abandoned Uses.

* * *

(.b) A successful zoning application for a permitted use or use approved by special exception in the district where the land is located shall not constitute abandonment of the nonconforming use until the permitted use or use approved by special exception is initiated on the property. [If the applicant does not initiate the permitted use or use approved by special exception and a prior nonconforming use has been discontinued for less than three consecutive years, the prior nonconforming use may be continued pursuant to §14-305(5)(b) (Replacement).]

* * *

(.3) Determination of Discontinued Nonconforming Use.

(.a) A “discontinued use” is a nonconforming use that is no longer being actively operated on the property [and] *or* for which there is evidence that the owner or lessee no longer intends to use the property for that purpose. Evidence of a discontinued nonconforming use may include, but shall not be limited [to,] *to*: (1) removal of improvements necessary to that use, (2) modifications to the property that make it unsuitable for that use, (3) lapsing of permits or licenses necessary to operate that use, or (4) failure to pay

property taxes or taxes related to the nonconforming use. L&I shall record such discontinuation of use in the file of the subject property.

* * *

(6) Nonconforming Structures. Nonconforming structures may be expanded or extended, provided that the expanded or extended area (a) complies with all provisions of §14-701 (Dimensional Standards) and §14-702 (Floor Area Bonuses) applicable to the zoning district where the property is located, (b) complies with the provisions of this §14-305(6) (Nonconforming Structures), and (c) does not increase any existing nonconformity.

(a) All expansions or extensions of nonconforming structures shall be limited to the lot occupied by the structure at the time it became nonconforming. [Any purchase of adjacent lands or merger of adjacent lands into a single lot shall not permit the expansion or extension of a nonconforming structure in a way that increases any existing nonconformity.]

* * *

(e) Where a side wall does not meet a required side yard requirement: 1) a horizontal extension of that wall into a *front yard* or side yard is an increase of that specific nonconformity, and is not permitted, and 2) a horizontal extension of a side wall into a rear yard is permitted, provided the extension complies with applicable rear setback and open space requirements. (See figure “Horizontal Extension of a Nonconforming Side Wall.”)

* * *

(g) Repairs to or renovation of a nonconforming structure or site improvement that [bring] *brings* the structure or site improvement into greater compliance with the building code [are] *is* permitted.

* * *

(8) Nonconforming [Accessory] Signs.

(a) Except for [accessory] signs specifically prohibited by [§14-904 (Accessory Sign Controls)] *this Zoning Code*, a permit shall be granted for the continued maintenance of any [accessory] sign lawfully in existence on March 28, 1946, regardless of compliance with any of the other provisions of [Chapter 14-900 (Signs)] *this Zoning Code*.

(b) A nonconforming [accessory] sign may be maintained in the same location and position in any way that (1) does not increase the size, height, or degree of illumination of the [accessory] sign, (2) does not create a new nonconformity, and (3) does not increase an existing nonconformity. Without limiting the previous sentence, [routine] *customary* maintenance of the [accessory] sign face or [accessory] sign structure and changes to the [accessory] sign message are permitted as long as no new violation of this Zoning Code is created.

(c) *If a re-zoning of land or establishment of a use causes an existing non-accessory sign that has been authorized by a zoning permit issued by L&I to be non-compliant with the minimum spacing requirements in §14-905, the sign shall be treated as a legal sign and shall not be considered non-conforming.*

* * *

(9) Nonconforming Parking or Site Improvements. Where [a conforming lot contains only conforming building and uses, but] the amount or location of off-street parking or amount, location, or design of site improvements (for example, landscape area) does not meet the requirements of this Zoning Code, [those nonconformities] *the nonconformity* may remain and be used notwithstanding those nonconformities. However, all provisions of Chapter 14-800 (Parking and Loading) shall apply to any development or changes to structures or uses on the lot.

The family day care use must be operated by the resident owner of the [dwelling unit] *residence* or a *resident* tenant authorized by the owner. [The operator (either the owner or authorized tenant) must reside in the dwelling unit.]

* * *

(b) Group Day Care. Group day cares in RSD districts shall be permitted only if accessory to a principal or accessory building used as an educational facility, hospital, library and cultural exhibit, religious assembly, or recreation building, provided that within “Area 1” and [Area 2,] “Area 2,” as defined in §14-603(5)(a)(.2), above, the building must be publicly-owned or operated.

(c) Day Care Center. Day care centers in RSD, RSA, RTA, and RM districts shall be permitted only if accessory to a principal or accessory building used as an educational facility, hospital, library and

cultural exhibit, religious assembly, or recreation building, provided that within [Area 2,] “Area 2,” as defined in §14-603(5)(a).(2), above, the building must be publicly-owned or operated.

If both of the immediately abutting lots are vacant, then the setback range shall be based on the building that is: (1) closest to the subject property and (2) on the same blockface. Where there are not a sufficient number of lots that meet these criteria to establish a front setback, the front setback shall be set at *the street line* {8 ft}.

§14-703. Form and Design.

* * *

(2) Applicability.

(a) The standards of this section shall apply to all [new] development, except for the following:

* * *

(5) Multi-Family Residential, Commercial, and Institutional. The intent of these standards is to promote development of buildings that enhance their surroundings through facades that contribute to street activity, the safe circulation of pedestrians and bicycles to and around buildings, and reduced visibility of utilities and equipment related to buildings.

* * *

(b) Building Design.

(.1) Façade Articulation. Façade articulation is required for each building frontage that is greater than 100 ft. wide and that faces a public street 40 ft. or wider. The intent is to ensure that public streets will not be fronted by featureless, monolithic walls. Between the average ground level and a height of 25 ft., a minimum of 30% of the wall area must include one or more of the following features listed in subsections (.a) through (.c). [For purposes of this §14-703(5)(b)(.1), the area of a façade articulation feature shall be the surface area of the wall occupied by the feature. Where that area is not a rectangle, triangle, square, or circle, the area shall be that of the smallest square or rectangle that could enclose the irregular shape.]

* * *

§14-704. Open Space and Natural Resources.

* * *

(4) Flood Protection.

* * *

(c) Special Regulations.

* * *

(.2) Within the Special Flood Hazard Area.

(a) For residential structures, any new construction or substantial improvement shall have the lowest floor elevation (including basement or cellar) elevated up to, or above, the regulatory flood elevation [of 18 inches above the Base Flood Elevation].

* * *

(c) Fully enclosed space that is below the lowest floor of the building and that is used solely for the parking of a vehicle, building access, or incidental storage shall be designed and constructed to allow for the automatic entry and exit of flood waters for the purpose of equalizing hydrostatic forces on exterior walls. The term “fully enclosed space” shall include crawl spaces. *For these spaces, a minimum of two openings having a total area of not less than one square inch for every square foot of enclosed space shall be included and shall be no higher than one foot above grade to provide that they permit the automatic entry and exit of flood waters.*

* * *

(e) Construction or substantial improvement of any structure used for the following is prohibited unless it is elevated or flood-proofed to remain completely dry to [one and one-half ft. above] the Regulatory Flood Elevation:

* * *

(f) *The following uses are prohibited within a Special Flood Hazard Area:*

1. *Hospitals*
2. *Group Living uses housing elderly or disabled persons or persons with limited mobility*
3. *Detention or correctional facilities*
4. *A new manufactured home park or manufactured home subdivision, or substantial improvement to an existing manufactured home park or manufactured home subdivision.*

(.3) Within the Special Flood Hazard Area, Approximate Zone A.

(a) Within the Approximate Zone A[, as defined by the Flood Insurance Rate Map (FIRM) or Flood Hazard Boundary Map (FHBM)], development shall be permitted on the same conditions applicable to the Special Flood Hazard Area in [§14-704(4)(c)] *subsection (.2) above, except as noted in this subsection [§14-704(4)(c)](.3).*

(b) [The Commission shall determine the regulatory flood elevation in accordance with standard hydrologic and hydraulic engineering methods.] *For Approximate Zone A areas, elevation and floodway information from other Federal, State, or other acceptable sources shall be used when available. Where other acceptable information is not available, the base flood elevation shall be determined by using the elevation of a point on the boundary of the identified floodplain area which is nearest the construction site. In lieu of the above, the Commission may require the applicant to determine the elevation with hydrologic and hydraulic engineering techniques. Hydrologic and hydraulic analyses shall be undertaken only by professional engineers or others of demonstrated qualifications, who shall certify that the technical methods used correctly reflect currently accepted technical concepts. Studies, analyses, computations, etc., shall be submitted in sufficient detail to allow a thorough technical review by the Commission.*

[(.c) The following uses are prohibited unless a special exception pursuant to § 14-303(7) (Special Exception Approval) is first obtained: Hospital; Medical, Dental, or Health Practitioner; Group Living uses housing elderly or disabled persons or persons with limited mobility; Day Care; or Detention or Correctional Facilities.

(d) No special exception approval for a use listed in § 14-704(4)(c)(.3)(c) above may be issued unless (i) the application complies with the provisions of Act 166 of 1978, known as the “Pennsylvania Floodplain Management Act,” and the regulations adopted pursuant to that Act pertaining to the issuance of special permits, and (ii) the Department of Community and Economic Development has approved the application.]

* * *

(.4) Special Requirements for Manufactured Homes. *Manufactured homes are prohibited in identified floodplain areas.*

(d) Designation of the Floodplain Administrator. *The Commissioner of Licenses and Inspections is hereby appointed to administer and enforce this §14-704(4) and is referred to herein as the Floodplain Administrator. The Floodplain Administrator may: (a) fulfill the duties and responsibilities set forth in these regulations, (b) delegate duties and responsibilities set forth in these regulations to qualified technical personnel, plan examiners, inspectors, and other employees, or (c) enter into a written agreement or written contract with another agency or private sector entity to administer specific provisions of these regulations. Administration of any part of these regulations by another entity shall not relieve the City of Philadelphia of its responsibilities pursuant to the participation requirements of the National Flood Insurance Program as set forth in the Code of Federal Regulations at 44 C.F.R. Section 59.22.*

(e) Changes in Identification of Area. *The identified floodplain area may be revised or modified by the Floodplain Administrator where studies or information prepared by a qualified agency or person and provided by an applicant documents the need for such revision. However, prior to any such change to the Special Flood Hazard Area, approval must be obtained from FEMA. Additionally, as soon as practicable, but not later than six months after the date such information becomes available, the applicant shall notify the Floodplain Administrator and FEMA of the changes to the Special Flood Hazard Area by submitting technical or scientific data.*

(f) *No permit for construction within the Special Flood Hazard Area shall be issued unless the applicant has provided written confirmation that all other necessary government permits required by state and federal laws have been obtained, including but not limited to those required by the Pennsylvania Sewage Facilities Act (Act 1966-537, as amended); the Pennsylvania Dam Safety and Encroachments Act (Act 1978-325, as amended); the Pennsylvania Clean Streams Act (Act 1937-394, as amended); and the U.S. Clean Water Act, Section 404, 33, U.S.C. 1344.*

(5) Stream Buffers.

(a) Applicability. *The stream buffer requirement shall apply to all lots sharing a boundary with any water course [that contributes to the City's surface drinking water sources. The Water Department shall establish, by regulation, a Hydrology Map that designates these water courses.] designated for protection on a Hydrology Map established by the Water Department in order to restore the City's water resources, including drinking water sources; maintain the base flow of streams; reduce erosion and sedimentation; control stormwater runoff; stabilize stream banks; and restore riparian habitats. The map below is for illustrative purposes only.*

* * *

(b) General Standards.

(.1) All development shall provide a stream buffer at least 50 ft. wide measured perpendicular to and horizontally from the top-of-bank.

(.2) The following activities and uses are prohibited within the stream buffer:

(a) Permanent or temporary structures, except for *docks, piers, and* structures accessory to public parks and open space.

[(b) Clearing of native or non-invasive vegetation.]

[(c)](b) Outdoor storage of materials.

[(d)](c) Roads and driveways.

[(e)](d) Parking lots.

[(f)](e) Any other directly connected impervious surface (see §14-203(95) (Directly Connected Impervious Surface), *except for recreational trails, which must conform to any design regulations adopted by the Commission.*

(c) Special Controls for the Delaware and Schuylkill Rivers.

(.1) Additional Permitted Uses. *Notwithstanding the provisions of subsection (b)(.2), above, or a lot's underlying zoning, the following additional activities and uses may be permitted within the stream buffers along the Delaware River and Schuylkill River if the Commission determines that they are compatible with any public parks and open space or recreational trails located in the stream buffer and allow sufficient clearance for safe recreational use, maintenance, and repair thereof:*

(.a) *Dock or port related activities, including docking or wharfing of ships for transfer of goods and related commercial trade activities;*

(.b) *Private marina and boat storage in areas designated by the City for launching watercraft into the Delaware or Schuylkill River;*

(.c) *Pipelines and conveyors that transfer equipment or materials to or from the Delaware or Schuylkill River;*

(.d) *Airport-related facilities;*

(.e) *Basic and major utilities;*

(.f) *Wholesale, distribution, and storage uses;*

(.e) *City-owned facilities of any type.*

(.2) Zoning Permit Procedures. *Before a zoning permit may be issued for any development on a lot sharing a boundary with the Delaware or Schuylkill River, the Commission shall review the application and accompanying plans. If the Commission determines that any proposed use in the application is subject to and permitted by this subsection (c), the Commission shall lodge such determination with the Chief Clerk of Council, with notice to the applicant, whereupon the determination shall become final if Council fails to adopt an ordinance to override such determination within 45 days after the recommendation is lodged. If the Commission determines that all proposed uses in the application are permitted as of right by this section and the application otherwise is in compliance with this section, the Commission shall, either immediately upon such determination or, if the immediately preceding sentence is applicable, after 45 days, approve the application and forward it to L&I for any further zoning review or issuance of the permit.*

* * *

§14-708. Subdivision Standards.

* * *

(3) Subdivision General Design Standards. The principles, standards, and requirements set forth in this § 14-708 (Subdivision Standards) shall be applied by the Commission in its review of proposed subdivision. These principles and standards are the minimum required and whenever they conflict with any other applicable provision of this Zoning Code, the more restrictive provision shall govern.

* * *

(b) Visitability. In any subdivision containing 50 or more detached, semi-detached or attached houses, at least 10% of the houses shall be visitable dwelling units, as defined in Chapter 14-200 (Definitions).

(.1) *Before the Commission may approve a Preliminary Plat, the Commission shall determine that the proposed subdivision will not preclude 10% of the houses from containing a step-free or accessible ground floor entrance on an accessible route that complies with ANSI A117.1 - 1998 section 4.8 and that has a maximum slope not to exceed 1:12.*

(.2) *Before L&I may issue a building permit, L&I shall verify that at least 10% of the houses in the subdivision are visitable dwelling units.*

* * *

CHAPTER 14-800. PARKING AND LOADING.

§ 14-801. Purpose, Applicability, and General Standards.

* * *

(5) Rules of Parking Measurement.

* * *

(b) Whenever the *final calculation* [calculations] of required or maximum off-street parking spaces pursuant to this Chapter 14-800 [result] *results* in a fraction of a parking space, and the fraction is equal to or greater than one-half, the number of required or maximum spaces shall be rounded up to the next whole number. If the *final* calculation results in a fraction less than one-half, the fractional portion of the requirement or maximum shall be ignored. *Rounding shall not occur until after all other calculations and adjustments required to determine the number of required or maximum off-street parking spaces have been completed.*

(c) The following types of parking spaces shall count towards the satisfaction of minimum off-street parking requirements, but shall not count against the maximum parking requirement.

- (.1) Accessible parking;
- (.2) Vanpool and carpool parking;
- (.3) Auto-share parking space; [and]
- (.4) Underground parking, and parking within, above, or beneath the building(s) it [serves.] *serves; and*
- (.5) *Accessory parking spaces required for residential uses within mixed-use developments..*

Required accessory parking in a CMX-2, CMX-2.5, CMX-3, CMX-4, or CMX-5 zoning district, except required parking for persons with disabilities, may be provided on a lot separate from the lot on which the principal use is located; provided that the off-site parking complies with all of the following standards.

(a) Off-site accessory parking must be within 1,000 ft. of an entrance to the principal use that the parking serves, as measured along the shortest legal pedestrian route.

(b) Off-site accessory parking must be located in a district where non-accessory parking is a permitted use.

(c) Off-site parking shall only serve occupants of or visitors to the principal use.

(d) In the event that the off-site parking is not under the same ownership as the principal use served, a written agreement between the record owners shall be submitted to L&I with the zoning permit application.

(.3) Private residence parking garages and carports, provided that:

* * *

(.c) L&I shall not issue a zoning permit for a private residence garage or carport accessed by a street, alley, or shared driveway less than 36 ft. wide unless the Streets Department has determined that there is sufficient maneuver space between the street, alley, or shared driveway and the garage or carport entrance.

* * *

(c) **Additional Regulations for RSA-5, RM-1, CMX-2, and CMX-2.5 Districts.** Notwithstanding the provision of this Zoning Code, accessory parking in the RSA-5, RM-1, CMX-2, and CMX-2.5 districts shall comply with the following:

* * *

(.2) For single-family uses in the RSA-5 district, off-street parking shall be prohibited, unless one or more of the following criteria are satisfied:

* * *
